Kim Jarvis

Welcome and About Me!

Hello, my name is Kim Jarvis. I have worked at Blue River Valley Elementary since 2014. I began as a 3rd grade paraprofessional aide. The following year I moved to the Technology aide and held that position until 2019. In 2020 I became the Elementary Treasurer. I was born in Muncie, Indiana. During elementary school, I lived in Las Vegas, Colorado, and Arizona. In the 7th grade, I moved back to Muncie, Indiana and graduated from Yorktown High School.

My Education and Professional Background

Following my graduation from Yorktown, I attended Ball State University. I studied Elementary Education and Accounting. After attending Ball State, I began a career in retail management for 17 years. I remained in the retail job until my youngest started Kindergarten at Blue River Valley Elementary. Since both of my children were attending Blue River Valley, I decided to change career paths, and this is when I began working at BRV.

My Educational Philosophy and Thoughts on Our School

Coming from a large school at Yorktown, I believe the smaller school systems give teachers and students the opportunity to have a close relationship with each other. I feel like this relationship between students and staff creates a family like atmosphere. When staff members of a school know every student and their families, they can create a learning environment based on the needs of each student.

My Family

I have been married to my husband (Scott) for 21 years. We have two children. Tara is a junior at BRV High School. Brody is a 7th grader at BRV Junior High. Both of my children are very active in sports. Most of our free time is spent watching both kids in basketball, tennis, baseball, and spending time with family.
